### ***ICE 24" Walk-Behind Auto Scrubber***

The i24BT is an automated walk-behind scrubber with a dual brush design, a steel chassis, and an aluminum brush base/pick-up tool. The i24BT has a 15 gallon solution tank and offers up to 99lb of pad pressure. It's a more compact machine with the capabilities and durability to work alongside our larger models. Downtime is wasted time. Money spent on replacement parts takes away from your bottom line. We understand that you use your machines as hard as possible to do your job, and we recognize that sometimes maintenance is a necessity. That's why our auto scrubbers and cord electric equipment come with a 5 year warranty. We have faith that we put out the best equipment possible, but if anything happens, we're here for you.
